Hi, I'm Adriano Leal!

I am a passionate web developer with experience in creating dynamic and user-friendly websites. I am proficient in HTML, CSS, and JavaScript, and I am always eager to learn new technologies. My goal is to build applications that are both beautiful and functional.
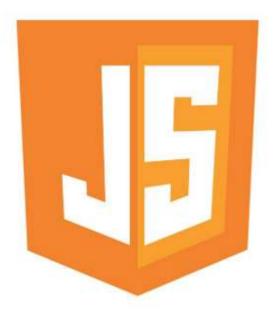

Skills

HTML

CSS

JavaScript

Java

Python

Projects

Project 1: E-commerce Website

Developed a front-end for a fictional online store. Features include a product catalog, shopping cart, and a responsive design that works on all devices.

Project 2: Task Manager App

A simple to-do list application built with JavaScript. Users can add, delete, and mark tasks as complete. All data is stored locally in the browser.

Project 3: Personal Blog

Created a personal blog template using HTML and CSS Grid. It's fully responsive and includes a clean, minimalist design for readability.

Recommendations

"[Your Name] is a very dedicated professional. The project was delivered on time and with exceptional quality. I would definitely work with them again!"

- Jane Doe, Project Manager

"An excellent developer with a great eye for detail. They transformed our initial idea into a functional and beautiful website."

- John Smith, CEO of Tech Solutions

"Working with [Your Name] was a great experience. They are proactive, a great team player, and highly skilled in front-end development."

- Emily White, Lead Designer
